PROFESSIONAL SUMMARY

Highly experienced **Senior Hemodialysis Nurse** with **over 10 consecutive years of clinical practice** in the specialized Hemodialysis Department of **Square Hospitals Ltd.** (Dhaka's premier JCI-standard tertiary private hospital). Expert in independently operating, calibrating, and troubleshooting major dialysis platforms: **Fresenius 4008S, 5008 CorDiax, B. Braun Dialog+, Gambro AK 96**, and ICU bedside **Sustained Low-Efficiency Dialysis (SLED)**. Master of native Arteriovenous Fistula (AVF) and Graft (AVG) cannulation, sterile Central Venous Catheter (**Permcath**) maintenance under strict Aseptic Non-Touch Technique (ANTT), and emergency intradialytic stabilization. Certified BLS provider with active BNMC registration valid through July 2029. Actively seeking senior clinical opportunities across premier hospitals in **Saudi Arabia, UAE, Qatar, and Kuwait**.

SPECIALIZED HEMODIALYSIS EXPERIENCE

Senior Staff Nurse – Hemodialysis Department | Square Hospitals Ltd., Dhaka July 2015 – Present (10+ Years)

- Deliver specialized hemodialysis nursing care for a high volume of ESRD and acute renal failure patients in a modern multi-bed tertiary hemodialysis unit.
- Independently prime, operate, and troubleshoot **Fresenius 4008S, 5008 CorDiax, B. Braun Dialog+, and Gambro** systems across rotating morning, evening, and emergency shifts.
- Conduct bedside **Sustained Low-Efficiency Dialysis (SLED)** for critically ill patients in Medical ICU, Surgical ICU, and Coronary Care Units.
- Perform high-precision cannulation of Arteriovenous (AV) Fistulas and Grafts, achieving a >98% first-attempt success rate while preserving vascular integrity.
- Perform sterile access, heparin locking, and dressing changes for temporary and tunneled Central Venous Catheters (**Permcath**) under strict ANTT protocols, achieving zero CRBSI.
- Intervene rapidly during intradialytic complications (severe hypotension, muscle cramps, chest pain, dialyzer reactions) via UF rate adjustment, Trendelenburg positioning, and saline resuscitation.
- Administer prescribed renal medications: Erythropoietin (EPO), Darbepoetin, IV iron preparations, IV calcium, and individualized heparinization protocols.
- Conduct daily morning chemical testing of the Reverse Osmosis (RO) water purification plant, strictly verifying total chlorine/chloramine levels comply with AAMI/ISO 23500 standards.
- Formally Endorsed by Dr. Mosaddeque Ahmed, MBBS, MRCP (UK), Consultant Nephrology, Square Hospitals Ltd.*

PRIOR CLINICAL EXPERIENCE

Senior Staff Nurse – Inpatient Medical & Surgical Wards | **Green Life Medical College Hospital** January 2014 – June 2015 (1.5 Years)

- Delivered bedside clinical care across general medical and surgical wards, coordinating admissions, post-op wound dressings, and medication administration.
- Assisted attending consultants during bedside sterile procedures and managed pre/post-operative surgical recovery pathways.

Trainee Nurse (Clinical Rotational Internship) | **Green Life Medical College Hospital** January 2011 – December 2013 (3 Years)

- Completed supervised rotations across Medicine, Surgery, Pediatrics, Emergency, and Nephrology departments.
- Maintained accurate, confidential electronic and physical patient records adhering to hospital documentation protocols.
